A unique account of the amazing Thai cave rescue told in a heart-racing, you-are-there style that blends suspense, science, and cultural insight. On June 23, 2018, twelve young players of the Wild Boars soccer team and their coach enter a cave in northern Thailand seeking an afternoon's adventure. But when they turn to leave, rising floodwaters block their path out. The boys are trapped! Before long, news of the missing team spreads, launching a seventeen-day rescue operation involving thousands of rescuers from around the globe. As the world sits vigil, people begin to wonder: how long can a group of ordinary kids survive in complete darkness, with no food or clean water? Luckily, the Wild Boars are a very extraordinary "ordinary" group. Combining firsthand interviews of rescue workers with in-depth science and details of the region's culture and religion, author Christina Soontornvat—who was visiting family in Northern Thailand when the Wild Boars went missing—masterfully shows how both the complex engineering operation above ground and the mental struggles of the thirteen young people below proved critical in the life-or-death mission. Meticulously researched and generously illustrated with photographs, this page-turner includes an author's note describing her experience meeting the team, detailed source notes, and a bibliography to fully immerse readers in the most ambitious cave rescue in history.

The story of the 13 courageous black men who integrated the officer corps of the US Navy during World War II—leading desegregation efforts across America and anticipating the civil rights movement Through oral histories and original interviews with surviving family members, Dan Goldberg brings 13 forgotten heroes away from the margins of history and into the spotlight. He reveals the opposition these men faced: the racist pseudo-science, the regular condescension, the repeated epithets, the verbal abuse and even violence. Despite these immense challenges, the Golden Thirteen persisted—understanding the power of integration, the opportunities for black Americans if they succeeded,

and the consequences if they failed. Until 1942, black men in the Navy could hold jobs only as cleaners and cooks. The Navy reluctantly decided to select the first black men to undergo officer training in 1944, after enormous pressure from ordinary citizens and civil rights leaders. These men, segregated and sworn to secrecy, worked harder than they ever had in their lives and ultimately passed their exams with the highest average of any class in Navy history. In March 1944, these sailors became officers, the first black men to wear the gold stripes. Yet even then, their fight wasn't over: white men refused to salute them, refused to eat at their table, and refused to accept that black men could be superior to them in rank. Still, the Golden Thirteen persevered, determined to hold their heads high and set an example that would inspire generations to come. In the vein of *Hidden Figures*, *The Golden Thirteen* reveals the contributions of heroes who were previously lost to history.

Years ago, Eva Jones narrowly escaped a killer's clutches. Left with thirteen scars and a secret to protect, she now lives a quiet life as an addictions counselor, doing her best to avoid notice. When his missing persons case poses a possible connection to Eva's captor, private investigator Asher "Ashe" Lincoln initially views Eva only as the key to saving a life. As their connection deepens and the killer stalks closer to reclaim the prey he lost, Ashe is unwilling to continue the risk. Unfortunately, that decision is no longer his. Ashe must convince Eva she's a survivor—not a victim—and more to him than bait or a means to an end. But will Eva find the courage to connect with Ashe and help catch the killer before her scars become deadly?

This magnificent novel by one of America's finest writers is the epic of one man's remarkable journey, set in nineteenth-century America against the background of a vanishing people and a rich way of life. At the age of twelve, under the Wind moon, Will is given a horse, a key, and a map, and sent alone into the Indian Nation to run a trading post as a bound boy. It is during this time that he grows into a man, learning, as he does, of the raw power it takes to create a life, to find a home. In a card game with a white Indian named Featherstone, Will wins—for a brief moment—a mysterious girl named Claire, and his passion and desire for her spans this novel. As Will's destiny intertwines with the fate of the Cherokee Indians—including a Cherokee Chief named Bear—he learns how to fight and survive in the face of both nature and men, and eventually, under the Corn Tassel Moon, Will begins the fight against Washington City to preserve the Cherokee's homeland and culture. And he will come to know the truth behind his belief that "only desire trumps time." Brilliantly imagined, written with great power and beauty by a master of American fiction, *Thirteen Moons* is a stunning novel about a man's passion for a woman, and how loss, longing and love can shape a man's destiny over the many moons of a life.
