This book describes a wide variety of speculations by many authors about the consequences for humanity of coming into contact with extraterrestrial intelligence. The assumptions underlying those speculations are examined, and some conclusions are drawn. The book emphasizes the consequences of contact rather than the search, and takes account of popular views. As necessary background, the book also includes brief summaries of the history of thinking about extraterrestrial intelligence, searches for life and for signals, contrasting paradigms of how contact might take place, and the paradox that those paradigms allegedly create.

Time-Traveling Eighth-Dimensional Andromedans Visit Earth They Share Advanced Science with a Mexican Professor, a Physicist. They Share Details of Their Interaction with a Devastating Nuclear Explosion Involving Two Countries on Earth. The Physicist Is Later Committed to a Mental Institution and Then Disappears Forever. His Journals Also Disappear. Now the Andromedans who originally contacted the Professor speak through Super channel Robert Shapiro and again give instructions that will allow trained scientists to construct a shield around existing Earth planes so that Earth astronauts can fly to Mars or to the stars. The Andromedans also tell what really happened on their journeys and on Earth, and they clear up questions one would have after reading the English or Spanish version of the previous book-the text of which follows the channeling in this book. In addition, they supply a lively account of their lives on their home planet in the Andromedan constellation of our galaxy.
